

ARYAN BARBATE

Full Stack Developer (MERN) | IT Diploma Student

aryanbarbate3@gmail.com | Pune, Maharashtra, India | aryanbarbate.me | github.com/Aryan-Barbate | linkedin.com/in/aryan-barbate

PROFESSIONAL SUMMARY

Motivated 3rd-year IT Diploma student from Pune with hands-on experience building full-stack web applications using the MERN stack. Currently interning at Linkcode Technologies, Shivajinagar, applying real-world skills in React, Node.js, Express, and MongoDB. Passionate about crafting clean, user-centric interfaces and scalable backend systems, with a strong record of shipping production-ready projects from concept to deployment on Vercel. Actively seeking open-source collaborations and full-time opportunities.

TECHNICAL SKILLS

Languages	JavaScript, HTML5, CSS3, C, C++, Python, Java
Frontend	React.js, Vite, Tailwind CSS
Backend	Node.js, Express.js
Databases	MongoDB, MySQL
Tools & Env	Git, GitHub, VS Code, Linux, Arduino, Vercel, Netlify
Design	Figma, Notion
Concepts	REST APIs, JWT Authentication, CRUD, Responsive Design, DOM APIs

INTERNSHIP / WORK EXPERIENCE

MERN Stack Developer Intern

2025 – Present

Linkcode Technologies — Shivajinagar, Pune, Maharashtra

- Currently building and maintaining full-stack web features using MongoDB, Express.js, React, and Node.js on live client projects.
- Applying REST API design, JWT authentication flows, and component-driven UI development in a production environment.
- Collaborating via Git/GitHub, following agile development practices and code-review workflows.

PROJECTS

Developer Portfolio

<https://www.aryanbarbate.me/> | [GitHub](#)

React + Vite • Framer Motion • Vanilla CSS • Formspree • Vercel Analytics

- Built a premium editorial-style portfolio with a custom design system, dark/light mode toggle, and SVG texture overlays.
- Implemented a keyboard-navigable Ctrl+K Command Palette with whitespace-stripped shortcut matching and full keyboard support.
- Developed an interactive CLI terminal panel simulating live git log output with custom shell commands (about, skills, projects, neofetch).
- Integrated Framer Motion for physics-based card modal transitions and scroll-reveal animations; deployed on Vercel with analytics.

Linea Flora — Digital Flower Bouquet App

linea-flora-ab.vercel.app | [GitHub](#)

React 19 • Vite • Tailwind CSS • Framer Motion • Radix UI • Vercel Serverless

- Designed an 8-step interactive canvas builder allowing users to drag, resize, rotate, and layer up to 10 flowers with hand-drawn aesthetics.
- Implemented URL-based sharing via lightweight base64-encoded state — no database required.
- Added personalized greeting card editor, ambient music selection, wrapping & ribbon curation in vibrant color and pencil-sketch modes.
- Built a persistent 'Garden' gallery for saving and managing completed bouquets; deployed serverless API on Vercel.

AniScope — Anime Discovery App

ani-scope-nine.vercel.app | [GitHub](#)

HTML5 • CSS3 • Vanilla JavaScript • Jikan REST API

- Developed a minimal anime discovery app with smart title-based search, genre filters, and smooth Apple-style scroll-reveal animations.
- Integrated Jikan REST API for live anime data with dynamic result count, source indicators, and an enhanced detail modal with genre chips.
- Codebase is 100% Vanilla JS using the fetch API and event delegation; deployed on Vercel.

GitHub Finder

ab-github-finder.vercel.app | [GitHub](#)

HTML5 • CSS3 • JavaScript • GitHub REST API

- Built a GitHub user-search tool consuming the GitHub REST API to display profile stats, repositories, and follower counts in real time.

The Gallery of Senses

ab-gallery-of-senses.vercel.app | [GitHub](#)

HTML5 • CSS3 • JavaScript

- Created an immersive multi-sensory gallery experience with custom animations and interactive visual design.

EDUCATION

Diploma in Information Technology

2023 – Present (3rd Year)

Government Polytechnic Awasari (Khurd), Pune — Affiliated to MSBTE, Maharashtra

- Pursuing a 3-year Diploma in Information Technology covering Data Structures, DBMS, Web Technologies, Computer Networks, and Object-Oriented Programming.
- Applying academic fundamentals through self-initiated real-world projects and open-source contributions.

AREAS OF INTEREST

- Full-Stack Web Development (MERN Stack)
- UI/UX Design — editorial aesthetics, design systems, motion design
- Open Source Collaboration
- API Design & Integration

EXTRACURRICULAR & PERSONAL INTERESTS

- Chess — applies strategic thinking and pattern recognition from the chessboard to software architecture decisions.
- Anime enthusiast and music listener; hobbies inform a strong visual design sensibility across all projects.
- Active GitHub contributor with Pull Shark, YOLO, and Quickdraw achievement badges.
